PRESTIGE
COLLECTION
2013

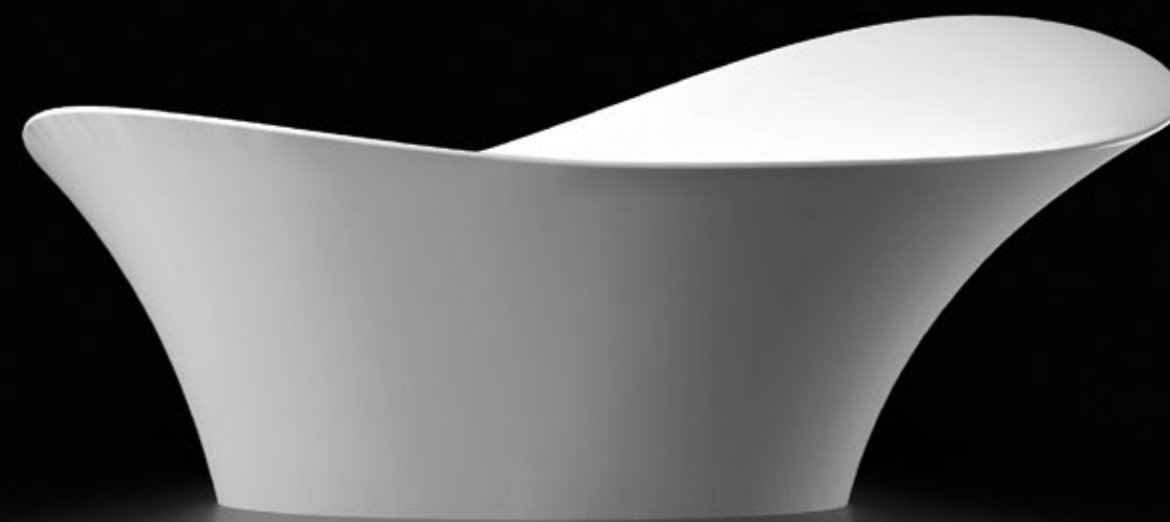

The Prestige Collection

is an offer for people appreciating luxurious design and non-standard solutions. The products within the Prestige Collection perfectly join the non-everyday form with everyday functionality. They are created by our internal design department, i.e. the Marmorin Design Studio which cooperates with the biggest designers. The Prestige Collection means: highest quality of design, perfection of make as well as selection of the most modern materials.
